

CGIAR Annual General Meeting 2005

Stakeholder Meeting (Science Forum)
Marrakech, Morocco, December 6-7, 2005

Agenda Item 3. Global Science and CGIAR Priorities

- (a) Science for Agricultural Development 2005
- (b) CGIAR System Priorities

Background/Process:

As part of its mandate, the Science Council reports on the state of science for agricultural development every two years. Lisa Sennerby-Forsse, a Science Council member, will present the SC's first report.

At AGM04 the Science Council Chair presented a report on the progress made in the process of identifying new System priorities for CGIAR research. The SC-led process has been completed and a priorities document has been produced. A revised version of the document has been submitted for discussion at AGM05. The SC Chair will present the key elements of the recommended CGIAR priorities document.

Documents:

1. Science for Agricultural Development: Changing contexts and new opportunities
2. Summary Report on System Priorities for CGIAR Research 2005-2015 (Full report is available at: http://www.cgiar.org/meetings/agm05/stakeholder_sf.html)
