

CGIAR Annual General Meeting 2005

Stakeholder Meeting (Science Forum)
Marrakech, Morocco, December 6-7, 2005

Agenda Item 5. Strengthening Research-for-Development Capacities **Parallel Session (a). Farmers as research and technology transfer partners**

Background/Process:

This session will discuss the farmers' role in planning and implementing research and technology transfer programs. Dr. Salvatore Ceccarelli (ICARDA) will give a keynote presentation sharing his experiences in participatory plant breeding. A panel of discussants, composed of farmers representatives, a CGIAR Center Director, and a NARS representative will be invited to give comments. This will then be followed by an open discussion.

Document:

1. Decentralized-participatory Plant Breeding
