

CGIAR Annual General Meeting 2005

Stakeholder Meeting (Science Forum)
Marrakech, Morocco, December 6-7, 2005

Agenda Item 5. Strengthening Research-for-Development Capacities Parallel Session (d). Evaluation of CGIAR training

Background/Process:

The Science Council commissioned a study to “assess how far and in what ways the CGIAR System has provided and can best provide training (based on scientific research) that strengthens NARS’ capacity to undertake collaborative scientific research to realize the goals of poverty alleviation, food security and sustainable production.” Elliot Stern, Panel Chair, will present the findings of the study. His presentation will be followed by comments from a panel of discussants.
